

Missouri State Archives

Finding Aid 5.51

Office of the Secretary of State

State Records Commission

Abstract: Meeting minutes (1965-) and records series approved by the State Records Commission.

Extent: 18.5 cubic feet and 13 electronic files

Physical Description: Paper and electronic files

Alternative Formats: Digital (Minutes)

Location: Missouri State Archives

Administrative Information

Access Restrictions: No special restrictions.

Publication Restrictions: Copyright is in the public domain. Items reproduced for online or physical publication should carry the credit line: Courtesy of the Missouri State Archives.

Preferred Citation: [Item description], [Date]; Box and Folder; [Series]; State Records Commission, Office of the Secretary of State, Record Group 5.51; Missouri State Archives, Jefferson City.

Acquisition Information: Agency Transfer. Accession numbers: 2010-0125, 2017-0204, 2019-0125, and 2021-0142.

Processing Information: Amy Dinkins on 12/06/2021.

Historical and Biographical Notes

In 1965, the General Assembly passed H.B. 294, creating the State Records Commission and the Missouri State Archives and Records Management Division “for the efficient and economical application of management methods to the creation, utilization, maintenance, retention, preservation and disposal of official records.”

In accordance with RSMo 109.250, the State Records Commission determines “what records no longer have any administrative, legal, research, or historical value and should be destroyed or disposed of otherwise.” The Commission was originally comprised of the Secretary of State, Attorney General, State Auditor, or their appointed representative; Director of the State Historical Society; a member of the House of Representatives appointed by the Speaker of the House; and a member of the Senate appointed by the President Pro Tem. The director of the Forms Management Unit was added in 1983 (H.B. 96), the Chief Information Officer was added in 2003 (S.B. 108). In 2010 the Commissioner of the Office of Administration was added to replace the director of the Forms Management Unit (H.B. 1868). The Director of Records Management and Archives serves as secretary to the commission and has no vote.

The Records Management Division works with agencies to create retention schedules (also known as records or disposition schedules). The schedules list records created by the agency, how long they should be kept, and what happens to the records after that time has elapsed – generally destroyed or transferred to the Missouri State Archives. The State Records Commission meets to approve, edit, or reject schedules.

Timeline

Year	Event
1965	House Bill 294 created the State Records Commission and the State Archives and Records Management Division.
1983	House Bill 96 added the director of the Forms Management Unit to the State Records Commission.
2003	SB 108 added the Chief Information Officer to the State Records Commission.
2010	House Bill 1868 added the Commissioner of the Office of Administration to replace the director of the Forms Management Unit.

Series

The records are organized into the following series:

Minutes, 1966-
Agency Retention Schedules, 1966-2007
State Records Commission Approval Forms, 2008-

Minutes, 1965-

Extent: 2.5 cubic feet (5 Hollinger boxes and 13 electronic files)

Arrangement: Chronological

Scope and Content

Minutes from State Records Commission meetings include official meeting minutes, notes, and related correspondence from 1965-2021 (bulk dates 1965-2008). Copies of retention schedules being discussed are included with minutes between 1990 and 2008.

Digital copies are available in Reference.

Agency Retention Schedules, 1965-2007

Extent: 13 cubic feet (27 Hollinger boxes)

Arrangement: By agency code numbers

Scope and Content

Retention schedules approved by the State Records Commission are organized by agency codes created by the Records Management Division and are in reverse chronological order within each agency folder.

Older retention schedules contain limited information about agency records, but generally include series title, retention and disposition. Schedules updated or written after the [2005 Records Appraisal and Scheduling Standard](#) will include descriptions of the records, scope of what is included in each series, and series cutoffs.

In 2003, the Records Management Division created a General Retention Schedule (GRS) to cover records created by all agencies (correspondence, fiscal records, etc.). Agency schedules updated or written after that point will not include series for those records.

Reading schedules:

- Cutoff: The point when the retention period starts.
- Retention (Years, Months, Days): The period of time records must be kept after the cutoff.
- Disposition: How records are disposed of after the retention period. This includes destruction and transfer to Missouri State Archives.

See State Records Commission Approval Forms for all retention schedules approved after 2007.

State Records Commission Approval Forms, 2008-

Extent: 3 cubic feet (6 Hollinger boxes)

Arrangement: Chronological by State Records Commission meeting

Scope and Content

State Records Commission Approval Forms are the retention schedules approved by the State Records Commission after the implementation of the State of Missouri Agency Records Tracking System (SMART). Approval forms contain new or updated records series and are not full retention schedules for agencies.

Approval forms are created at the series level, allowing agencies to update their retention schedules one series at a time, instead of updating the entire retention schedule for one change. Agencies were required to update their entire retention schedule to comply with the [2005 Records Appraisal and Scheduling Standard](#), before they began updating single series.

Organized by State Records Commission meeting dates and then alphabetically by agency, the approval forms include the Series number, title, records description, cutoff, retention time, and disposition action.

In 2003, the Records Management Division created a General Retention Schedule (GRS) to cover records created by all agencies (correspondence, fiscal records, etc.). Agency schedules updated or written after that point will not include series for those records. General Retention Schedule Certifications are approved when an agency only uses the GRS and does not create records that are not defined by it.

Container List

Box	Folder	Contents	Date
1	1	General Retention Schedule - Administrative Operations	12/17/2008
1	2	Office of the State Auditor	12/17/2008
1	3	Department of Corrections - Adult Institution - Director's Office	12/17/2008
